Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Preliminary Notes: Claims 38-51 are now pending and have been entered. Due to an error in numbering the claims beginning after claim 44, the claims have been re-numbered. A copy of the re-numbered claims are included with this action.

The claims obviously informal and have been examined in accordance with MPEP 702.01.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 38-51 rejected as failing to define the invention in the manner required by 35 U.S.C. 112, second paragraph.

The claim(s) are narrative in form and replete with indefinite and functional or operational language. The structure which goes to make up the device must be clearly and positively specified. The structure must be organized and correlated in such a manner as to present a complete operative device. The claim(s) must be in one sentence form only. Note the format of the claims in the patent(s) previously cited in the record.

In general, the *Markush* type options are inconsistent. For example, in claim 1, the "positioning means" are means for holding the inflatable chambers in apertures. However, not all of the options recited as being possible positioning means actually are used for holding the chambers in the apertures. This is the most common problem occurring in these claims, but it occurs in all of the independent claims.

Claims 38-51 would be allowable if re-written to overcome the rejections under 35 USC 112, second paragraph.

The examiner is willing to offer suggested claims to overcome these rejections.
